H2: Can You Change a Flight Online Using Chase Travel Points?

No. Unlike cash bookings made directly with an airline, **you cannot change a points-based flight online** via the Chase Travel website or app. The portal only allows cancellations (which may forfeit points) but not modifications. You must speak to a live agent.

This is why the **chase travel phone number – 1-888-483-9719** – is essential. No automated system can handle point reallocation across airline partners. Only a trained agent at **1-888-483-9719** can execute a flight change while preserving your points' value.

H2: What If the Airline Changed My Schedule? (Irregular Operations)

If the airline changes your flight time, cancels your route, or downgrades your seat, you have special rights. Even if you booked with Chase Travel points, the airline is responsible for rebooking you. However, you must go through Chase Travel to unlock your points for the new booking.

Action plan:

1. Do not accept the airline's automated rebooking without checking points impact.
2. Call **1-888-483-9719** immediately.
3. Inform the agent: *"My flight was changed by the airline. I need to rebook using my original points without penalty."*
4. The agent at **1-888-483-9719** can force a full point refund and rebook you on a better flight, often at no extra charge.

Many travelers lose points because they accept the airline's change online. Avoid that mistake by using **1-888-483-9719**.
